OTHER COMPONENTS	Base cup, handles or other components which are separated by grinding and float/sink - all with density <1 g/cm ³ ; Unpigmented PET		Materials with density >1 g/cm ³ (e.g. metal, RFID tags); Non detaching or welded components Coloured PET
RECYCLED CONTENT	No change in the recyclability assessment. A separate 'Recycled Content Traceability Certification' based on a Chain of Custody approach is available with RecyClass		

* Class ranking resulting from the RecyClass assessment. B class is reported two times because of the 90-95% amount of PET in the packaging or because of slight incompatibilities in the design.

** Polymer resin can be either fossil- or bio-based.
